

Tailored Digital Solutions  
for Australian Clinics

# PRINT

Effortless, Reliable Printing  
for Australian Clinics

# PRINT

Tailored Print Solutions for Australian Medical Practices. Medlink Connect™ | PRINT is a managed print solution designed specifically for Australian healthcare clinics.

Say goodbye to unpredictable toner costs, outdated office printers, and surprise breakdowns. With fixed monthly pricing, automatic toner fulfilment, and full-service support — it's printing, done right.

## FEATURES

### **MANAGED, WORRY-FREE PRINTING**

Eliminate stress from your day. Your printers are remotely monitored and managed, with AI-triggered toner deliveries before you run out — all included in your monthly fee.

### **NO UPFRONT HARDWARE COSTS**

Get business-grade Lexmark printers and multifunction centres with no capital outlay. Devices are amortised over the service term for a budget-friendly approach.

### **FULL ONSITE WARRANTY**

Enjoy comprehensive coverage throughout the entire term. Faulty parts are replaced free of charge — and if the unit fails, a full replacement is provided at no extra cost.

### **SMART TONER MANAGEMENT**

Our cloud-based system uses AI to detect low toner levels. Each device is named (e.g. "Reception Left (Kate)" or "Consult 3") and toner is automatically delivered to the correct location. No calls, no delays, no hassle.

### **FLEXIBLE DEVICE OPTIONS**

Choose from compact black & white printers to high-capacity colour MFCs. Optional paper trays, larger page bundles, and upgrades available.

### **SIMPLIFIED BILLING**

One fixed monthly invoice covers your hardware, toner, support, and servicing. No more surprise costs or tracking separate consumables.

## LOCAL EXPERTISE & PARTNERSHIP

Developed by Medlink Connect™ — a trusted Australian provider of purpose-built healthcare software and services — in partnership with Lexmark, the global leader in healthcare print solutions.

Our solutions are designed exclusively for medical practices, combining world-class hardware with local expertise to deliver dependable, seamless performance every day.
