

Tailored Digital Solutions
for Australian Clinics

VAULT

Australia's Secure Healthcare
File Sharing Solution

VAULT

Send and receive sensitive patient data securely — even if the other party doesn't have a secure messaging platform.

FEATURES

Secure, Compliant and Streamlined

100% RACGP ACCREDITATION COMPLIANT

Fully meets the security and data handling standards required by the Royal Australian College of General Practitioners.

END-TO-END ENCRYPTION

Protects all data in transit and at rest using modern, robust encryption protocols.

AUSTRALIAN DATA HOSTING

Your files never leave the country. Hosted entirely within Australia to ensure data sovereignty compliance

MULTI-FACTOR AUTHENTICATION

Adds an additional layer of protection by requiring secure identity verification.

PASSWORD-PROTECTED FILES

Send files with optional password protection to ensure only authorised recipients can access them.

EXPIRY DATES ON SHARED FILES

Set download expiry dates to automatically revoke access after a specific period.

SECURE FILE REQUESTS

Collect files safely from external parties without exposing your network or email systems.

LARGE FILE SUPPORT

Upload and send large files and folders — no need for compression tools or workarounds.

PRACTICAL APPLICATIONS

Healthcare and Beyond

SEND MEDICAL RECORDS TO INSURERS

Streamline claims by securely sending reports to insurance companies.

SHARE MEDICAL DATA WITH PATIENTS

Give patients access to their health records securely and compliantly.

USE BEYOND MEDICAL DATA

Perfect for sending contracts, financial data, HR files, or any other sensitive material.

WHY CHOOSE US

Medlink Connect™ | VAULT

ELIMINATE USBs AND REGISTERED POST

Replace slow, insecure methods with instant and secure file transfers.

AVOID NON-COMPLIANCE PENALTIES

Using Dropbox, OneDrive or unencrypted email for patient data violates Australian privacy laws. VAULT helps you stay compliant.

UNIVERSAL ACCESSIBILITY

Send secure files to anyone — specialists, insurers, or patients — using just an internet connection.
